

**NEW!**

NEW REBATE PROGRAM FROM  
THE GREEN ONTARIO FUND

# \$500/WINDOW CUSTOMER REBATE

FOR QUALIFYING WINDOWS UP TO \$5,000!

## GET STARTED TODAY — IT'S EASY!

**1.** Dealers must be Window Wise™ certified to participate in the GreenOn Rebates program. Sign up and see certification details at [sawdac.com/Window-Wise](http://sawdac.com/Window-Wise).

**2.** Sell and install Regency or Regency 400 Series windows with an ENERGY STAR® Most Efficient glass package. See charts below for qualifying Regency and Regency 400 windows and glass packages.

**3.** Submit the GreenOn Rebates application on your customer's behalf.

**IMPORTANT:** The windows' ratings stickers/labels are required as part of the GreenOn Rebates application. By NFRC protocol, Gentek is not able to reprint stickers; you must keep the stickers/labels when you remove them from the windows.

**4.** The rebate applies for each rough opening; a bay or bow window with more than one glass unit qualifies for one rebate.

**5.** Customer validates the window installation has been completed, submits proof of purchase and receives a cheque in the mail in approximately 8-12 weeks.

### Insulation and Sealants Rebates, Too!

Gentek carries qualifying insulation and sealants that can earn GreenOn Rebates for your customers. See your local Gentek branch for details.

- **Sealants** – Supra Elite™ and Quad® Max
- **Insulation** – Atlas Energy Shield® and Atlas Energy Shield CGF
- **Foam** – Still to be determined; call your branch for more information

**LEARN MORE**
