

# BASEMENT AND HOPPER WINDOWS

With superior strength and insulating performance, Regency basement and hopper windows offer the ideal way to add natural light and ventilation to the lower levels of your home.

## BASEMENT WINDOW

## PRECISION-ENGINEERED FOR SUPERIOR QUALITY AND ENERGY SAVINGS

### BASEMENT WINDOW

- 1 Double-glazed 7/8" insulated glass unit featuring advanced Super Spacer warm-edge design creates an effective thermal barrier to restrict transfer of heat and cold; EnergyPlus glass (double-layered soft-coat Low-E and argon gas) offers enhanced energy-efficient technology.
- 2 Sweep-type lock at the bottom of window locks and unlocks the operating sash.
- 3 IntegraWeld fusion-welded frame and sash corners add extra structural strength and increase precision in the frame and sash.

### HOPPER WINDOW

- 1 Double-glazed 7/8" insulated glass unit featuring advanced Super Spacer warm-edge design creates an effective thermal barrier to restrict transfer of heat and cold; EnergyPlus glass (double-layered soft-coat Low-E and argon gas) offers enhanced energy-efficient technology.
- 2 Hinge-free pivot shoe design ensures smooth operation.
- 3 IntegraWeld fusion-welded frame and sash corners add extra structural strength and increase precision in the frame and sash.

## HOPPER WINDOW

### Basement Windows

Intended for use at or below grade, the top-hinge construction allows the basement window to open inward, providing convenient air circulation and natural light to the interior.

### Hopper Windows

The hopper window hinges at the bottom and opens to the interior of your home. It can be installed above ground, allowing refreshing airflow and natural light.
