# THE CHAMCLAD WAY

Chamclad's exterior and interior panels are proudly **Made in Canada from 100% recycled PVC**, making them **LEED compliant and maintenance free**. Customer service and quality are our #1 goal. Our business rises above industry standards for architectural solutions that our customers are proud of.

ChamClad's panels are modern, stylish, and offered in a variety of high-definition, high-end woodgrain, metallic, solid and anodized finishes. Our products lend warmth to city places, define family spaces, and suit tough applications on residential, commercial, and light industrial projects.
