

Board & Batten Vertical Siding

Lasting architectural interest and flair.

Use Everlast Board & Batten Vertical Siding either exclusively or in combination with Everlast Horizontal Lap Siding. Made from an advanced composite, Everlast Board & Batten provides the ultimate low-maintenance high-aesthetic siding solution. Featuring a solid core substrate with a highly durable, UV-resistant acrylic cap, and authentic CedarTouch® textured finish, Everlast Board & Batten siding never requires caulking or painting; is unaffected by water; will never swell, bow, split, or rot; and comes with an industry-best Limited Lifetime Warranty.

Standard Colors

Chestnut

Features & Benefits

- Light weight yet solid and highly durable
- 12' length reduces waste and eliminates seams in majority of applications requiring lengths greater than 10'
- CedarTouch® finish provides the most realistic cedar texture available
- Superior dimensional stability
- Textured acrylic capstock finish is bonded to color-shaded substrate
- Unaffected by water and suitable for any environment
- Will not support combustion
- Batten-integrated design for fast and easy single-component installation
- Installs with virtually any pocketed trim package or trim boards
- Fully compatible with premium color-matched Everlast trim or matte white cellular PVC trim
- Industry-best Limited Lifetime Warranty for ultimate peace of mind
- Beautifully complements Everlast Horizontal Lap Siding
