

AWNING WINDOWS

The versatile awning window can transform any room with timeless style and refreshing ventilation. Opening up and out with a convenient crank handle, awning windows pair beautifully with picture windows or architectural shapes to make a larger window design.

Awning windows can be combined with fixed lites to create a larger window group that offers ventilation.

Dual jamb locks seal the window tight.

Heavy-duty operating hardware.

Attractive fold-down handle with nesting cover.

Structural T-Mull Awning Windows

Awning windows also are available in 2-lite T-mull vertical configurations. The structural mullion attaches directly to the rough opening, delivering increased strength and stability to the finished installation, even for larger window sizes. Expansive window walls can be created by combining awnings, casements and fixed casement windows.

2-Lite T-Mull Awning

PRECISION-ENGINEERED FOR SUPERIOR QUALITY AND ENERGY SAVINGS

- 1 IntegraWeld four-point fusion-welded corners add structural strength and increase precision in the frame and sash.
- 2 Hidden exterior accessory groove on the frame and an integrated 1/2" or 3/4" J-channel for installation clip.
- 3 Heavy-duty operating hardware crank ensures a tight fit for easy operation.
- 4 Multiple lock points on awnings over 21" in height.
- 5 Double-glazed 7/8" thick (nominal) insulated glass units featuring advanced Super Spacer warm-edge design create an effective thermal barrier to restrict the transfer of heat and cold; EnergyPlus glass (soft-coat Low-E and argon gas) offers enhanced energy-efficient technology.

Triple-glazed 1-3/8" thick (nominal) insulated glass unit option for even greater thermal efficiency year-round.

ADDITIONAL FEATURES

- Premium vinyl frame and sash never need painting and will not rust, peel or corrode.
- Spring bottom-loaded screen design (no pins or tabs) for a snug fit and easy removal and replacement from the interior.
- Full range of vinyl, composite and wood jamb extensions available.
