Rooflines, gables and trim areas command extra attention when adding visual interest and dimension to the architecture of a home. At the same time, these important areas require proper ventilation to allow moisture to escape from the eaves and rafters.

Gentek offers four distinctive soffit systems to meet every application need. Oxford and Fairweather solid soffit panels also install beautifully as vertical siding for greater design options.

**Beaded Premium** Beaded Premium features a sculpted bead, recessed vents and elegant matte texture to recreate the handcrafted look of Victorian centre-bead board. Vent openings in the .042" thick panel (nominal) are concealed in the two centre-beads for a clean appearance. Available in select colours.

**Oxford® Premium** Oxford presents an ample measure of style and substance in a double 5" profile. Its durable .042" panel thickness (nominal) enhanced with a light roughsawn texture will complement a variety of architecture.

**EZ Lock** This classic double 4" soffit profile features a .041" panel thickness (nominal) and a light roughsawn texture. Available in Snow White and Black.

**Fairweather®** Quality-crafted with a brushed texture, Fairweather soffit provides an easy-care finish in an attractive .040" thick panel (nominal) that's economically priced.

## A WORD ABOUT QUALITY

Gentek delivers the confidence and value only a true leader can provide. We proudly stand behind our products with the full faith of our more than 55 years of manufacturing expertise and some of the strongest warranties in the industry. Our voluntary participation in rigorous quality certifications and independent testing is further assurance you have made an excellent selection for your home.

### A MORE SUSTAINABLE CHOICE

The home that protects you can also help protect the environment. As a durable product with a long service life, vinyl siding such as those manufactured by Gentek have been shown in a cradle-to-grave Life Cycle Assessment study commissioned by the Polymeric Exterior Products Association (formerly the Vinyl Siding Institute) to have a smaller environmental footprint relative to competing materials.<sup>1</sup> And because it never needs to be painted, vinyl siding also helps prevent paint, stain and other maintenance-related products from being released to the environment.

### A LIFETIME OF PROTECTION

Gentek vinyl soffit is backed by a lifetime limited, non-prorated, transferable warranty with hail protection and lifetime fade coverage. For complete warranty information, including limitations, ask your dealer for a copy of the Gentek vinyl soffit warranty.\*
