GENTEK BUILDING PRODUCTS

Rooflines, gables and trim areas command extra attention when adding visual interest and dimension to the architecture of a home. At the same time, these important areas require proper ventilation to allow moisture to escape from the eaves and rafters.

Gentek offers four distinctive soffit systems to meet every application need. Sequoia Select, Oxford and Fairweather solid soffit panels also install beautifully as vertical siding for greater design options.

Sequoia® Select Ultra-Premium This superbly crafted triple 4" soffit will give your home a striking finish with its luxurious matte texture, heavy-duty .044" panel thickness and hidden vent design.

Beaded Premium Beaded Premium features a sculpted bead, recessed vents and elegant matte texture to recreate the handcrafted look of Victorian centre-bead board. Vent openings in the .042" thick panel are concealed in the two centre-beads for a clean appearance. Available in select colours.

Oxford® Premium Oxford presents an ample measure of style and substance in a double 5" profile. Its durable .042" panel thickness enhanced with a light roughsawn texture will complement a variety of architecture.

Fairweather® Quality-crafted with a brushed texture, Fairweather soffit provides an easy-care finish in an attractive .040" thick panel that's economically priced.

WHAT'S IN A COLOUR? EVERYTHING.

From cool neutral palettes to bold contrasting hues, colour defines the design. Gentek vinyl soffit is available in a grand scale of colours that lets you tailor the look of your home with signature style.
