

ALIGN™

COMPOSITE CLADDING

STRIKING AESTHETICS WITH INSTALLATION EASE FOR A SUPERIOR OVERALL VALUE

REALISTIC WOOD TEXTURE WITH
HEIGHTENED **STRUCTURAL STRENGTH.**

ALIGN COMPOSITE CLADDING HAS ARRIVED – AND THERE’S NOTHING ELSE LIKE IT

The architectural beauty of real wood, but with easier installation and better overall value. ALIGN Composite Cladding delivers the high-end aesthetics customers want and the lower total installed cost businesses need.

- Ample 7" flat face exposure and authentic cedar mill grain texture achieve the rich look of wood
- Strong yet lightweight construction ensures a high-performing home exterior

- Self-aligning stack lock provides a quicker and easier installation than fiber cement and engineered wood
- Requires fewer laborers – a single installer can get the job done!

You'll appreciate the time and cost savings of this trade-friendly cladding. When it comes to choosing the best product for your next project, you can depend on ALIGN for quality and ease like no other.

ALIGN OFFERS ONE OF THE LOWEST TOTAL COST OF CLADDING WITHOUT SACRIFICING CURB APPEAL – **RESULTING IN HIGHER PROFITABILITY FOR YOUR BUSINESS.**

PATENTED (GP)² TECHNOLOGY[®] FOR OPTIMIZED PERFORMANCE

As the world's first composite cladding incorporating **G**lass-reinforced **P**olymer and **G**raphite-infused **P**olystyrene (GP)² Technology, ALIGN is in a class of its own.

Precision-engineered for superb form and functionality, ALIGN meets or exceeds industry test standards and criteria for windload, workability, flame spread/smoke development and weatherability.

Take a closer look at the (GP)² Technology design ingenuity:

- Glass particles in the compound increase structural integrity, strength and heat resistance
- Graphite-infused polystyrene increases energy efficiency and reduces thermal bridging; helps achieve an R-value of 2.0 when applied directly over sheathing
- Non-moisture absorbing materials prevent rotting, warping, shrinking and swelling
- Impact modifiers increase resistance to dents, dings and abrasions
- Titanium dioxide shields against ultraviolet degradation
- Integral weatherable pigments fortify the colors against fading, including darker hues

Superior Windload Resistance

ORGANIC WOOD BEAUTY

Impressive style and realistic texture of freshly painted wood, striking curb appeal, carefree upkeep and a curated palette of 20 fade-resistant colors.

Thermal Barrier and Impact Resistance

QUICK AND EASY INSTALLATION

No sealing, touching up, joint flashing or caulking are required – resulting in less labor and increased profitability.

Moisture-Resistant

A LIFETIME OF PROTECTION

ALIGN Composite Cladding is backed by a lifetime limited warranty,* further assurance of exceptional quality, performance and value.

HIGH-END ARCHITECTURAL APPEAL
INSTALLATION EASE
VIRTUALLY MAINTENANCE-FREE
COMPATIBLE TRIM, WINDOWS AND ACCESSORIES
LIFETIME LIMITED WARRANTY*

ALIGN COMPOSITE CLADDING

TAKING THE LEAD IN **FUTURE-FORWARD BUILDING MATERIALS**

		FIBER CEMENT/ ENGINEERED WOOD	VINYL SIDING	ALIGN™
ARCHITECTURAL APPEAL	Authentic woodgrain beauty	●		●
	Tall profile/exposure	●		●
	Flat face	●		●
QUALITY AND PERFORMANCE	Structural strength and solid feel against the wall	●		●
	Compatible with high-end trim options	●		●
	Moisture-resistant (won't swell)		●	●
	Resists high winds with unexposed fasteners		●	●
	Carefree upkeep		●	●
	Lifetime limited warranty*		●	●
USER-FRIENDLY INSTALLATION	Easy to handle		●	●
	Simple installation (self-aligning, one-person hang)		●	●
	No sealing, touching up, joint flashing or caulking		●	●
	No specialized skills required (less risk of installation errors)		●	●
	Enhanced safety (no respirators or special tools needed)		●	●

REINFORCED NAIL HEM
delivers extra-strong wall attachment and increased windload resistance (up to 180 mph/290 km/h).

FORGIVING HANG
helps conceal uneven surfaces and minor wall imperfections.

SELF-ALIGNING STACK LOCK
provides consistent and easy installation.

(GP)² TECHNOLOGY[®]
ensures lower expansion and greater structural integrity.

INTEGRATED ENERGY-SAVING INSULATION
helps prevent energy loss year-round.

7" FLAT FACE PROFILE WITH CEDAR MILL GRAIN TEXTURE
recreates the organic beauty of natural wood.

ON-TREND COLOR PALETTE
features 20 fade-resistant, low-gloss colors for extensive design options.

COMPATIBLE 3/4" PANEL PROJECTION
works beautifully with both standard and architectural trim accents.

DEFINED BUTT EDGE
replicates the look of wood, with added dimension and a crisp shadow line.

GENTEK VISUALIZER

Take your projects to the next level with the Gentek Visualizer. This easy-to-use program lets you create "before and after" shots featuring a variety of color schemes.

- Design-ready with a gallery of house images; access it from any mobile device and start designing.
- Upload a photo of your customer's home and use the design tools to apply products to your photo (our design team can also prep the photo for you).
- Save your designs – all of your selections are listed and ready to go.

COLOR DEFINES THE DESIGN

Nothing does more to impact a home's exterior design than color. From deep saturated hues in cool neutrals to bold shades and light-changing grays, Gentek has everything you need to let your vision unfold.

SERVING THE PROFESSIONAL CONTRACTOR

At Gentek, we appreciate the often-challenging demands facing the building products professional, and we do our very best to serve your needs. Our vast resources help us to ensure that consistent quality, reliable delivery and market-sharp product lines – along with powerful warranties, effective sales support and proven business insight – are of the highest caliber. As a true building products partner, we are dedicated to making your projects easier, more efficient and more rewarding.
