

UP TO
**\$5,000 IN
REBATES¹**

FOR QUALIFYING WINDOWS & DOORS

Canada
**Greener
Homes**
Grant

Homeowners can receive a total savings of up to \$5,000 for qualifying ENERGY STAR[®] replacement windows and doors through the Canada Greener Homes Grant initiative.

ELIGIBILITY & REQUIREMENTS

- Home must be primary residence, and homeowner must provide proof of ownership. Only one registration per household.
- Eligible property types include single and semi-detached houses, rowhomes, mobile homes, low-rise multi-unit residential buildings² and mixed-use buildings². Learn more at [nrcan.gc.ca/energy-efficiency/homes/canada-greener-homes-grant/23441](https://www.nrcan.gc.ca/energy-efficiency/homes/canada-greener-homes-grant/23441).

GET YOUR CUSTOMER STARTED IN 4 EASY STEPS

1. Register for the program:
 - Quebec** <https://transitionenergetique.gouv.qc.ca/residentiel/programmes/renoclimat>
 - Nova Scotia** <https://www.efficiencyns.ca/residential/programs-services/home-energy-assessment/>
 - All Others** <https://www.nrcan.gc.ca/energy-efficiency/homes/canada-greener-homes-grant/23441>
2. Contact a service organization with an EnerGuide inspector to complete an EnerGuide evaluation. The homeowner pays up front for pre- and post-retrofit evaluations; up to \$600 total is eligible for reimbursement.³
3. Review EnerGuide inspector's list of eligible measures and complete at least one recommended retrofit.
4. Submit receipts and forms for reimbursement and track the rebate payment.

IMPORTANT PROGRAM INFORMATION

- Homeowner must provide receipts for the pre- and post-retrofit EnerGuide evaluations, as well as invoices and receipts for purchased products and the cost of the installation.
- All products must be purchased in Canada; online purchases are eligible only if ordered from an online distributor in Canada.
- Windows/doors must be on an eligible list (see reverse side).
- Maintain ENERGY STAR labels on products until after the post-retrofit evaluation.
- A new window unit can be inserted into the existing frame of an old window, but replacements of only the glass, sash or door without a frame are not eligible.
- A maximum of \$250 per rough opening, up to a total of \$5,000⁴ for overall project.

ELIGIBLE WINDOWS & DOORS

ELIGIBLE REBATE PER ROUGH OPENING⁴

Replace windows or sliding glass doors with ENERGY STAR⁵ certified models:

- U-Factor of 1.22 W/m²K or less OR
 - Energy Rating ≥ 34
- \$125**

Replace windows or sliding glass doors with ENERGY STAR Most Efficient certified models:

- U-Factor of 1.05 W/m²K or less OR
 - Energy Rating ≥ 40
- \$250**

Replace hinged doors, with or without sidelites or transoms, with ENERGY STAR certified models:

- U-Factor ≤ 1.22 W/m²K OR
 - Energy Rating ≥ 34
- \$125**

Gentek windows can be tailored with a variety of ENERGY STAR-qualified glass packages for optimal energy efficiency. Please consult your Gentek representative for the best glass package for your home and climate conditions.

WINDOWS, DOORS AND MORE!

Gentek carries insulation, sealants and other energy-saving products that may qualify for Greener Homes Grant rebates. See your Gentek sales representative for details or visit www.nrcan.gc.ca/energy-efficiency/homes/canada-greener-homes-grant/23441.

1001 Corporate Drive | Burlington, ON L7L 5V5
gentek.ca | *Make us a part of your home.*

¹\$5,000 is the total maximum rebate for implementation of eligible retrofits done after December 1, 2020. Grants cannot exceed the cost of the individual measures displayed on the invoice. Grants cover the tax amount as well as the base cost.

²Multi-unit residential buildings (over three stories or 600 m² in footprint) are not eligible under this initiative.

³EnerGuide evaluations completed prior to December 1, 2020, are not eligible for reimbursement. Homeowners must continue through the full Greener Homes Grant process in order to be eligible for reimbursement of the pre-retrofit evaluation.

⁴Windows and doors grants are calculated on a rough opening basis. The allocated grant amount is the same as for a home. MURBs can install as many windows and/or doors up to a total of \$5,000 per homeowner and a maximum of \$20,000 per MURB.

⁵ENERGY STAR certified means that the model meets or exceeds the ENERGY STAR levels. Each certified model comes with a temporary label showing that the unit is ENERGY STAR certified.

Product improvement policy: Gentek Building Products is constantly improving product designs and manufacturing processes. We therefore must reserve the right to change specifications without notice. Please consult Gentek Building Products for current details. Trademarks mentioned in this document are the property of Gentek Building Products, its affiliates, or their respective owners. Accessible formats and communication supports are available upon request.
