For trim, accessories, gutter coil and other product information, please see the detailed Gentek Product Directory.

Gentek composite cladding, siding, windows, doors and trim accessories bring easy living to the forefront. The premium appearance provides the beauty of freshly painted or stained wood but without the worries of rotting, splitting, warping or insect damage. This extensive product collection offers every "must have" for upscale style in a virtually maintenance-free home exterior.

THE BEAUTY OF SUPERB CRAFTSMANSHIP

Featuring high-performance materials and cutting-edge technology, Gentek products are expertly crafted to withstand harsh weather elements, including pounding rain, high winds, intense heat and frigid cold. We've also fortified our darker siding colours with fade-defying colour formulations to provide superior colour retention and resistance to weathering — ensuring the luxurious finish stays true.

FUTURE-FORWARD AND VALUE-RICH

For most people, a home is a source of pleasure and pride, as well as an important investment. Gentek products not only will create an attractive finish, they will heighten the home's curb appeal as well. And, in today's resale market, a beautiful, low-maintenance exterior can be a valuable amenity.

GENTEK SETS THE STAGE FOR SUCCESS!

Choosing just the right products, profiles and colours makes it possible to reveal each home's perfect potential. Horizontal, vertical and specialty siding are just the starting point. Beautiful new windows, doors, rainware, decorative accessories and trim complete the picture. Gentek also offers a full selection of building envelope products, tools and equipment to streamline your projects with simplicity and ease.

Design inspiration starts here.

The power of colour is undeniable when creating a beautiful home exterior. From sublime palettes in monochromatic tones to bold contrasting architectural hues, colour defines the design. Gentek products are available in a grand scale of colourful options that let you tailor the look with signature style.

COLOUR MATCHING MADE SIMPLE

No need to settle for siding and trim that "almost match." Our exclusive Colour Clear Through® collection of customer-preferred hues helps ensure a beautiful colour match with other Gentek siding, trim and accessory products.

CHOOSE DARKER SIDING COLOURS WITH CONFIDENCE

Richer, more resilient colours. A luxurious, low-luster finish with a depth of visual appeal. Enduring beauty and performance. Gentek vinyl siding has never been better – thanks to ChromaTrue® fade-defying colour technology.

This advanced copolymer compound fortifies our darker colour sidings with superior colour retention and protection from the elements, including exposure to intense sun and heat, pounding rain, saltwater and chemicals. ChromaTrue also provides a highly weatherable finish that stands up strong to dings and abrasions.

CUSTOM-PAINTED WINDOWS

Regency 400 Series and Regency window exteriors can be custom painted to match any of our trim colours, allowing you to achieve a truly upscale appearance for your exterior design. Interior colours are extruded Nordic White and extruded White, respectively.

EXTENSIVE TRIM COLOUR SELECTION

We have one of the largest selections of colours available for aluminum trim, soffit and fascia, including many shades of a single hue, to let you perfectly refine your custom design.

Matching Accents

Door trim, porch railing and other exterior accents can be painted to match your Gentek siding and windows. Gentek proudly offers Dulux exterior paint for all of Gentek's most popular colours. Please note that paint colour codes are formulated for Dulux paint only.

GENTEK VISUALIZER

Take your renovation projects to the next level with the Gentek Visualizer. This easy-to-use program lets you create "before and after" shots featuring a variety of colour schemes that showcase your renovation ideas.

- Design-ready with a gallery of house images; access it from any mobile device and start designing.
- Custom "photo-realistic" option upload a photo of your customer's home and use the design tools to apply products to your photo (our design team also can professionally prep the photo for you).
- Pre-selected products and colour combinations are offered for design inspiration.
- Save your preferred products, colours and designs everything is listed and ready to go.

A NEW STANDARD IN QUALITY AND ENERGY SAVINGS¹

Energy-Saving Technology Custom-contoured — insulation (up to 1-1/4" thick†) creates a blanket of thermal protection.

Greater Impact Resistance Provides more impact resistance than conventional "hollow back" siding for superior strength and a beautifully uniform finish.

Superior Perm Rating of 5 Allows insulation to breathe and moisture to escape, not get trapped inside.

Full-Roll Nail Hem Heavy-duty, double-thick wall — attachment increases strength and structural integrity.

Quiet Comfort High-density insulation and integrated panel design help soften outside noise for a quieter indoor ambiance.

Beautiful Wood-Like Appearance Natural cedargrain texture and low-gloss finish for subtle elegance.

Longer Panels The extra-long 16'8" (D6) and 16'4" (D5D) panel lengths create fewer overlaps for a superior finished look.

†Nominal.

INTELLIGENT SIDING SOLUTIONS

A fusion of beauty and strength, Sequoia Select EnFusion helps prevent energy loss to keep your home warm and cozy in the winter and refreshingly cool in the summer – with less energy consumption. The laminated, rigid foam insulation is contoured to fill the gap between the siding and your home to provide greater energy efficiency. This protective layer also helps conceal imperfections in the underlayment to ensure smooth wall lines and an upscale appearance.

THE ULTRA-PREMIUM DISTINCTION

Extra-Heavy Wall Thickness Heavy-duty .046" thickness provides superior rigidity, ensuring straight, smooth walls.

Full-Roll Nailing Hem Delivers double-strength wall attachment.

Exclusive Advantage Lock System -

Securely connects panels, greatly enhancing rigidity and stability.

Built Weather-Tough! High-performance panel stands up strong to harsh weather, dings and abrasions; won't chip, flake or peel.

Rich Cedargrain Emboss Beautiful low-gloss finish – achieves natural appeal and excellent durability; requires minimal upkeep.

Superior Lap Height Full 3/4" lap height creates a deeper dimension and enhanced shadow lines for a true wood look.

A PREMIER HOME EXTERIOR

Exquisite style, exceptional strength – that's the hallmark of Sequoia Select ultra-premium vinyl siding. Greater panel thickness and deeper dimension. An extraordinary hurricane-velocity wind resistance. A luxurious low-gloss finish embossed with a rich cedargrain texture. All in a generous selection of 29 beautiful colours and 4 classic profiles for tastefully stated elegance.

Select Double 5" Clapboard colours are special order. Double 4" Clapboard, 8" Horizontal and 12" B&B profiles are special order only.

Impact Resistant Constructed of roll-formed 29 gauge Galvalume AZ-50 steel for excellent resistance to hail damage and denting.

Built Weather-Tough Rugged steel construction is virtually impervious to outdoor elements. Unlike wood, compressed particleboard or fiber cement, it won't absorb moisture. Steel siding also resists warping, chalking, fading and brittleness in cold weather.

Smooth, Straight Wall Lines Rigid steel panels deliver high dimensional stability and resist buckling and the wavy appearance that can result from expansion and contraction caused by extreme weather changes.

Upscale Appearance Deep 1/2" panel projection creates greater dimension and style with bold edges and dramatic shadow lines. The resilient PVDF finish resists dirt and dust buildup, staining and mildew.

Carefree Maintenance No need for time-consuming painting or scraping. Just a simple rinse with a garden hose will remove most airborne dust and dirt.

A Sustainable Choice Steel siding is 100% recyclable, requires no additional painting or caulking and does not produce silica dust during installation.

Insect Resistant Resists damage from wood-eating insects, such as termites.

LUXURY'S NEW LOOK - THE BEAUTIFUL STRENGTH OF STEEL

Distinguished for its superb durability and versatile design possibilities, metal is on the rise as a prime exterior cladding. Premium raw materials and cutting-edge technology merge with skilled craftsmanship and artistry to achieve the outstanding quality of our Sierra Steel siding. Each panel is virtually "weather-sealed" with a resilient Kynar PVDF coating, a high-performance fluoropolymer resin with a luxurious low-gloss finish.

RAINWARE PRODUCTS

A QUALITY FINISH FROM EVERY ANGLE

Built of corrosion-resistant aluminum, Gentek rainware products will not rot, rust or warp. A tough, baked-on paint finish resists flaking, peeling and blistering to ensure years of maintenance-free performance.

- A. Sectional Gutter (eavestrough)
- B. Outside Mitre (for corners)
- C. Inside Mitre (for corners)
- D. Elbows (for downpipe)
- E. Downpipe
- F. End-Caps (for gutter)
- **G.** Outlet Tube (to connect gutter and downpipe)
- H. Spikes
- I. Fascia Bracket
- J. Gutter Bracket
- K. Slip Joint Connectors
- L. Pipestraps

GUTTER GUARDS

Gentek carries a wide selection of gutter guards, including Alu-Rex quality products.

CHAMCLAD® PVC SIDING, SOFFIT, CEILING AND TRIM

More than a cladding system, ChamClad architectural panels offer green and sustainable strategies for the built environment. Manufactured from recycled rigid PVC, the panels are cost effective and easy to install, and provide superior durability and impact resistance.

- Made in Canada from recycled rigid PVC; LEED compliant and CCMC certified
- A beautiful solution for a wide range of applications including siding and soffit, beams and pillars, interior walls and ceilings
- One of the most realistic finishes on the market with matte and texturized patterns
- Stay-true colours that offer superior UV protection, weather resistance and colour stability
- Quality finishes protect against heat buildup and are scratch- and graffiti-resistant
- Easy installation no special tools or caulking required
- One profile offers two looks: V-Groove or U-Channel
- Products available on CAD Details and Specpoint
- Choose from a full selection of colours, trim and accessories

DISTINCTION

MODERNO

THE ELEGANCE OF WOOD WITHOUT THE MAINTENANCE

Distinction and Moderno steel sidings merge the strength of steel with organic beauty for a superior home exterior.

- High-performance painting process provides rust prevention
- · UV-resistant paint prevents discolouration and cracking
- Fire and weather resistance
- Full line of matching accessories for an authentic look
- Low maintenance
- · Concealed fasteners leaving no visible seams and joints
- · Easy installation; installs vertically or horizontally
- Tested in accordance with ASTM E330 Standard Test Method for Structural Performance

Wood Shade Series

ALUMINUM PANELS WITH ORGANIC VISUAL APPEAL

Realistic-looking woodgrain finishes and colours make Longboard a standout selection for upscale residential applications. This high-performance cladding recreates the natural beauty and richness of wood but without the maintenance.

- Available in 12' or 24' lengths in 40+ standard finishes; custom colour matching also offered
- 100% recyclable and 100% non-combustible
- Long-lasting won't rot, warp, peel or mould
- 15- or 20-year warranty

Dark Cherry

Table Walnut

THE AUTHENTIC LOOK AND FEEL OF CEDAR

With superior dimensional strength and durability, Everlast composite siding achieves the perfect mix of natural-looking wood elegance and carefree upkeep.

- Extremely durable mineral composite siding with polymer resins and acrylic colorants
- Highly UV-resistant acrylic capstock with authentic CedarTouch® finish
- · Never requires caulking or painting
- · Superior wind, hail and impact resistance
- Will not support combustion
- Virtually impervious to water; ideal for coastal and freeze/thaw environments
- Superior dimensional stability for reduced expansion and contraction
- Available in 4-1/2" and 7" Lap siding and 11" Board & Batten profiles

SHAKES AND SHINGLES

MAKE A STATEMENT OF STYLE

Our superb collection of shakes and shingles combines the best of both worlds the beauty of nature and the power of technology. The authentic profile designs and authentic textures achieve the character and charm of handcrafted wood in a high-performance polymer construction.

Versetta Stone®

The beauty of stone, the simplicity of siding[™]

THE SIGNATURE LOOK OF STONE

Create the high-end style of traditional stone masonry but without the excess cost and installation time. Versetta Stone combines handcrafted beauty with modern practicality in a non-structural, cement-based panelized stone veneer.

- Cast in moulds and hand-coloured with iron oxide pigments to replicate natural stone shapes, textures and patterns
- Lightweight and easy to install with tongue and groove interlocking system; installs in virtually any weather
- Designed to effectively manage moisture to help prevent mould growth
- Ideal for exteriors, interiors, new construction and remodel projects
- Tested and approved to rigorous building standards
- NAHB Green Approved Product

Choose from Ledgestone or Tight-Cut profiles in a variety of colours.

NEXT-GENERATION ENERGY EFFICIENCY**

With meticulous attention to every detail, Regency 400 Series merges modern style with advanced technology to achieve superior energy efficiency, enduring beauty, easy upkeep and excellent value.

Ask about EnergyPlus™ QUATTRO insulated glass packages to meet ENERGY STAR® requirements.

SUPERIOR PERFORMANCE IS INHERENT IN THE DESIGN

Energy-engineered Regency 400 Series replacement windows are expertly crafted to improve the energy efficiency of a home while enhancing its appearance with an upscale, contemporary look. The superb construction features an extra-strong 4-1/2" thick fusionwelded frame with the sash positioned closer to the interior part of the wall for improved thermal protection.

- Heavy-duty 4-1/2" welded rigid vinyl multi-chamber frame construction
- Welded sashes with triple weatherstripping for superior insulation
- 7/8" thick (nominal) double-glazed glass units with Low-E, argon and Super Spacer® structural foam spacer (standard)
- Triple-glazed units up to 1-3/8" thick (nominal) with Low-E and argon² or krypton for ultra energy efficiency (optional)
- EnergyPlus™ QUATTRO, EnergyPlus and Solar Shield glass packages available
- A recyclable material with a long service life, vinyl windows are built with manufacturing efficiencies that help reduce waste
- · Contemporary sash for a modern look
- Decorative grids, specialty glass and installation accessories

ENERGY-SAVING SOLUTIONS DESIGNED FOR NORTHERN CLIMATES

For many homeowners, conserving energy and reducing fuel costs is a primary reason for purchasing new windows - and that's why superior thermal efficiency is at the core of our Regency window design.

Ask about EnergyPlus™ QUATTRO insulated glass packages to meet ENERGY STAR® requirements.

EXCEPTIONAL STRENGTH, ENDURING STYLE

Precision-engineered for outstanding thermal efficiency, Regency windows incorporate several design features to ensure an exceptionally strong and weathertight fit, as well as energy savings and a markedly refined appearance.

- Fusion-welded masterframe and sash corners
- · Beveled exterior masterframe accommodates various installation methods and architectural styles
- · Metal-reinforced sash
- Double-glazed EnergyPlus glass with Low-E, argon gas and Super Spacer structural foam spacer
- Optional EnergyPlus QUATTRO, EnergyPlus and Solar Shield glass packages available

CREATE CUSTOM APPEAL

80 Series

FUSION-WELDED VINYL WINDOWS

DESIGNED FOR YEAR-ROUND ENERGY SAVINGS

Featuring a premium vinyl construction, fusion-welded technology and high-performance glass, 80 Series windows will exceed your every expectation for energy efficiency, quality and value.

Ask about EnergyPlus™ QUATTRO insulated glass packages to meet ENERGY STAR® requirements.

STYLISH AND STRONG

In 80 Series, you have discovered a window that will improve the energy efficiency of a home while enhancing its appearance, inside and out. Heavy-duty vinyl frames and sashes, multi-chambered extrusions and high-performance insulating glass achieve outstanding energy efficiency. Together, with its superior durability and structural integrity, this premiere vinyl window is as strong as it is beautiful.

- Fusion-welded frame and sashes
- Sturdy 3-3/8" frame depth
- Also available in 1" set back nail fin and stucco flange options
- 1" thick (nominal) insulated glass unit with Intercept® warm-edge spacer; optional structural foam spacer
- Side-load sash design (single-hung windows) and removable fiberglass screens for easy cleaning
- Metal reinforcement in the meeting rails for increased strength and rigidity
- Optional EnergyPlus QUATTRO and EnergyPlus glass packages available
- Choose extruded White, Almond or Desert Clay; optional exterior finish colours include Black, Architectural Bronze and Silver (Desert Clay base not available with exterior colour finishes)

INSTALLATION EASE

80 Series windows come standard with a 1-3/8" nail fin. For enhanced appearance and ease of installation, three additional options -1" set back nail fin, stucco fin and a block frame - also are offered.

1-3/8" Nail Fin (standard)

70 Series

FUSION-WELDED VINYL WINDOWS

IMPRESSIVE PERFORMANCE

Our 70 Series windows will add the perfect touch of refinement to any home with their quality construction, enduring good looks and low-maintenance features.

BEAUTIFUL, DURABLE AND ENERGY EFFICIENT

Gentek 70 Series windows deliver a weathertight fit to help conserve energy use year-round, while enhancing the appearance of a home inside and out.

- Fusion-welded vinyl frame and sashes
- 2-5/8" frame depth for multiple applications
- 3/4" thick (nominal) insulated glass unit promotes energy savings
- Intercept spacer or optional structural foam spacer
- · Metal reinforcement in the meeting rails for increased strength
- · Available in White, Almond and Desert Clay

AMHERST™

VINYL REPLACEMENT WINDOWS

ENERGY-SMART AND VALUE-PRICED

Amherst windows combine beauty and energy efficiency with everyday affordability. The fusion-welded masterframe and sashes and high-performance glass system together create a strong thermal barrier against energy loss.

QUALITY DESIGN AND CONSTRUCTION

Built in the tradition of quality, Amherst windows deliver impressive performance and energy efficiency, as well as beauty and value.

- · Fusion-welded frame and sashes
- Energy HSG insulated glass unit with Intercept spacer system
- Interlocking composite-reinforced sash meeting rails
- Bulb seal at the meeting rails for enhanced thermal performance
- Beveled exterior profile and sloped sill
- · Available in White and Beige

FIRST IMPRESSIONS

CREATE A DRAMATIC FOCAL POINT

A beautiful entry door makes a powerful statement of style for any exterior design. Choose from a wide selection of First Impressions by Gentek entry doors in styles that fit every design and budget.

First Impressions by Gentek doors can be customized with decorative glass and hardware for a distinctive design with custom appeal.

Our contemporary classics, craftsman and rustic door collections will complement any architectural style.

PATIO DOORS

EXPERTLY BUILT FOR SUPERIOR PERFORMANCE

Each door in our versatile collection features a heavy-duty construction, superb design and easy-care features for long-lasting quality and performance.

STORM DOORS

PRACTICAL AND STRONG

Gentek offers a full line of expertly crafted storm doors to protect entry areas from inclement weather. Our storm doors also are ideally suited for patio enclosures, providing easy access as well as a substantial weather shield.

BUILDING ENVELOPE, SEALANTS AND FOAM

Ensure your renovation and new construction projects are securely protected. Our full selection of insulation, sealants and foam provides essential barriers against moisture and air penetration, energy loss and other elements.

BUILDING ENVELOPE AND INSULATION

Choose from leading brands in building envelope systems and insulation materials, including HomeGuard and Titan housewraps, and EnergyShield wall insulation.

SEALANTS AND FOAM

Finish the job off right with highquality sealants and foam, such as Mulco® sealants and Lepage QUAD Foam.

TOOLS AND EQUIPMENT

Having the right tools and equipment for the job is essential for a professional installation. At Gentek, you'll find everything you need, such as as Malco® tools, brakes and gutter equipment from Tapco® and Van Mark, and a wide selection of ladders.

EQUIPMENT

Our full selection of brakes and gutter equipment from Van Mark and Tapco, along with Werner® ladders and scaffolds, makes it easy to get all everything you need in one convenient stop.

TOOLS

Gentek carries a wide range of installation tools, including the popular Malco brand, for home exterior renovations and new construction projects.

ARCHITECTURAL SPECIFICATIONS

COMPOSITE CLADDING ARCHITECTURAL SPECIFICATIONS

GENTEK ALIGN COMPOSITE CLADDING

PHYSICAL DATA:

EmbossCedar mill grain

PRODUCT TEST DATA:

Impact Resistance Coefficient of Linear Expansion (in/in/°F) Thermal Resistance ASTM D3345, Termite Resistance ASTM D5206-13, Windload Resistance (16" OC nails, 1-1/4" penetration)

*When installed directly over sheathing.

57 inch lbs 2.3 x 10⁻⁵

R-value 2.0* Complete resistance 53 psf (180 mph/290 km/h)

FIRE RESISTANCE:

ASTM E84 - Class A

ASTM E119 Rated Assemblies ASTM D635. Rate of Burn ASTM D1929, Self-Ignition/Flash-Ignition Temperature NFPA 268, Section 1406 of IBC

Flame spread index ≤25 Smoke developed index ≤450 Approved for use No self-sustained burn 770°F (410°C) Approved for use

CODES AND REGULATORY COMPLIANCE:

Intertek Code Compliance Research Report #0316 ICC-ES Evaluation Report – ESR 4449 Florida Product Approval #31747

Gentek backs ALIGN with a lifetime limited warranty to the original homeowner; the warranty is transferable if the home is sold.

THREE-PART FORMAT SPECIFICATION:

Long-form specification in three-part format is available at ALIGNCompositeCladding.com.

VINYL SIDING AND SOFFIT ARCHITECTURAL SPECIFICATIONS

Produced to precise tolerances using formulated compounds specifically designed for the plastic building products industry according to ASTM D4216, meeting or exceeding the following:

Property	ASTM Test	Results
Tensile Strength (psi)	D-638	6,700
Modulus of Elasticity (psi)	D-638	410,000
lzod Impact (70°F) Izod Impact (32°F)	D-256 D-256	3.6 (ft-lb/in of notch) 2.0 (ft-lb/in of notch)
Flexural Strength (psi)	D-790	14,000
Coefficient of Linear Expansion	D-696	5.3 x 10 ⁻⁵ (mm/mm °C) 2.9 x 10 ⁻⁵ (in/in °F)
Deflection Temperature Under Load 264 psi (°C)	D-648	73

PRODUCT PHYSICALS:

All siding products, soffit panels and accessories are made with solid colour throughout. The siding products and accessories meet or exceed the ASTM Specification for Rigid Poly Vinyl Chloride (PVC) Siding D3679. All soffit products and associated accessories meet or exceed the ASTM Specification for Rigid (Unplasticized) Poly Vinyl Chloride (PVC) Soffit D4477.

The siding and soffit compound meets Class 2 requirements and conforms to weathering performances as described in ASTM 3679.

Colour: Spectrophotometer controlled Gloss: Gardner gloss meter controlled Lock: Dimensionally controlled

All products meet or exceed ASTM 3679 thickness (nominal) requirements:

(
Sequoia Select EnFusion	0.046"
Sequoia Select	0.046"
Board & Batten	0.050"
Fair Oaks	0.044"
Concord	0.042"
Driftwood II	0.040"
Sequoia Select Ultra-Premium Soffit	0.044"
Oxford Premium Soffit	0.042"
Beaded Premium Soffit	0.042"
Fairweather Soffit	0.040"

WARRANTY:

All Gentek vinyl siding brands carry a Lifetime Limited Warranty including fade and hail protection. Warranty is transferable if the home is sold. See printed warranty for complete details.

SOFFIT VENTILATION AREA:

Gentek soffit panels are designed to allow air circulation into the attic areas to aid in the reduction of excessive heat buildup and water vapor condensation. The net free open area (NFOA) per lineal foot of soffit is as follows:

12" Sequoia Select Ultra-Premium Vented	10 sq in
10" Oxford Fully Vented	5.3 sq in
8" Beaded Vented	2.4 sq in
12" Fairweather Centre Vented	2.3 sq in
12" Fairweather Fully Vented	7.1 sq in

FIRE RESISTANCE RATINGS:

Gentek vinyl siding products meet or exceed all building code requirements throughout the United States and Canada. In addition to meeting these code requirements, Gentek vinyl sidings have been fire rated by Underwriters Laboratories (UL) to be used in one-hour rated designed walls U026 and U032 and a two-hour rated wall, U301. UL inspects the manufacture of the vinyl products quarterly to certify that Gentek vinyl products are manufactured consistently. The vinyl products have been tested

Property	ASTM Test	Results
Average Burn Distance	D-635	20mm
Average Burn Time	D-635	<5 seconds
Flash Ignition Temperature	D-1929	752°F
Self Ignition Temperature	D-1929	860°F
Flame Spread Index	E-84	15
Smoke Developed Index	E-84	<400
Fire Resistance	E-119	1-hour rated*
		2-hour rated*

^{*}See UL Fire Resistance Directory Control No. 1N60. E-119 is equivalent to UL-263 and E-84 is equivalent to UL-723.

Important fire safety information for the building trades, specifiers, professionals and do-it-yourself installers: When rigid vinyl siding is exposed to significant heat or flame, the vinyl will soften,

sag, melt, or burn and may thereby expose the material underneath. Care must be seg, incl., or an and particular suppose the indicated interface of a second se prior to installation. All building materials should be installed in accordance with local, state and federal building codes and fire regulations.

WINDLOAD PROPERTIES:

All Gentek siding products are designed to withstand a minimum of 100 mph windloads and are suitable for most areas. The products can be used in areas with higher windloads, but installation procedures, choice of product and building code jurisdiction are important factors to be considered. The windspeed rating (in mph) is calculated using VSI's windspeed calculation guidelines. Additional information is available if required.

BUILDING CODES:

Gentek vinyl products meet or exceed the following building code specifications:

ICC-ESR - 1133 CCMC - 06541-L

New York City MEA 132-94-M FHA/HUD Minimum Property Standards

ARCHITECTURAL SPECIFICATIONS

ALUMINUM SIDING ARCHITECTURAL SPECIFICATIONS

ALUMINUM METAL PROPERTIES:

Alloy or equivalent	AA3000
Specific Gravity	2.72
Modulus of Elasticity (ksi)	10.000
Melting Range (°F)	

COATING PROPERTIES:

Gentek aluminum products are manufactured with AA3000 series alloy (or equivalent). Both sides of the aluminum are cleaned with a specially formulated cleaner. The cleaned aluminum is then treated with an acid solution containing chrome to enhance corrosion resistance and coating adhesion.

Polyester (Poly) Topcoat: The topside of the pretreated aluminum is coated with a thermoset polyester polymer which is dried and cured at about 450°F, forming a hard but flexible and weatherable coating. Total coating thickness is approximately 18 micrometers.

WEATHERING AND TESTING:

entek products are tested for superior adhesion and forming properties. Gentek's stringent colour specifications allow batch to batch mixing of product. Product testing includes colour, film thickness, gloss, hot water/impact test, freezer/impact test, salt spray, humidity testing (1000 hours) and outdoor exposure (2 years).

COMPLIANCE:

The aluminum alloys used meet the ULC Standard CAN4-S114-M80, defining the noncombustibility of aluminum alloys.

WARRANTY:

40 Year Limited Warranty. Warranty is transferable.

CONTACT WITH DISSIMILAR MATERIALS AND CORROSIVE ENVIRONMENTS:

Direct contact of aluminum products with certain dissimilar materials, or contact with water runoff from dissimilar materials, is likely to result in corrosion. Accordingly, care should be taken during installation to avoid such contact of aluminum with dissimilar materials, including: dissimilar metals (copper, zinc, steel, etc.), concrete, stucco, asbestos siding, pressure treated/pretreated lumber, masonry, corrosive non-metallic materials, and roofing materials or roofing systems containing metallic granules or strips. Seacoast or other corrosive environments may result in corrosion of the product.

NOMINAL GAUGES (mm):

Product	Gauge
8" Horizontal	0.53
D4 Dutch Lap	0.40
D4 Clapboard	0.40 & 0.44
8" Vertical Board & Batten	
Vertical "V"	
16" Soffit – 2 Panel	
16" Soffit – 4 Panel	0.29 & 0.38
18" Soffit – 3 Panel	0.33
4" Fascia – rib	
6" Fascia – rib & non-rib	0.44 & 0.50
8" Fascia – rib & non-rib	
Gutter Coil	0.57, 0.66 & 0.79

SOFFIT VENTILATION AREA:

Gentek soffit is available in a variety of profiles. Vented panels are designed to allow air circulation into the attic areas to aid in the reduction of excessive heat build-up and water vapour condensation. Gentek soffit conforms to CCMC 12860-L.

PROFILE	PER LINEAR FOOT	PER PANEL
16" – 2 panel	4.02 sq in (25.9 cm ²)	48.7 sq in (314.2 cm ²)
16" - 4 panel	4.12 sq in (26.6 cm ²)	51.25 sq in (330.6 cm ²)
18" - 3 panel	5.46 sq in (35.2 cm ²)	54.6 sq in (352.3 cm ²)

VENTILATION: Fully vented

STEEL SIDING ARCHITECTURAL SPECIFICATIONS

METAL PROPERTIES:

Steel or Equivalent	AZ-50
Specific Gravity	7.8
Minimum Ultimate Strength (KSI)	45-55
Minimum Yield (KSI)	40-50
Minimum Elongation (%)	<i>25-35</i>
Modulus of Elasticity (KSI)	29,500
Coefficient of Thermal Expansion (in/in °F)	0.000006
Melting Range (°F) Steel	>2700
Melting Range (°F) Zinc	<i>786</i>
Thermal Conductivity at 77°F (btu-in/ft ² -hr-°F)	555

COATING PROPERTIES:

Gentek steel siding products are manufactured with AZ-50. Both sides of the steel sheet are cleaned with a specially formulated cleaner, water rinsed and then coated with an environmentally safe chemical pretreatment to enhance corrosion protection and coating adhesion.

The pretreated surface is coated with a thermoset corrosion-resistant polymer. This corrosion-resistant polymer is topcoated with the following polymeric systems:

Plastisol (PVC) Topcoat: This highly weatherable, flexible, chemical-resistant thermoplastic polymer is melted and fused at temperatures of >390°F. The coating is applied with a striated pattern or smooth finish having an average film thickness of 3.0 mils.

Fluoropolymer (PVDF₂): This thermoplastic polymer has excellent chemical and fade resistance. The coating thickness is 0.9 mil. The system is cured at a minimum temperature of 475°F. This polymer system conforms to the high industry standards of Kynar 500° and Hylar 5000°. The main criteria for these standards is that the paint formulation must contain a minimum of 70% PVDF₂. Many fluoropolymer coatings on the market do not meet the high quality and performance standards required by Kynar 500 and Hylar 5000 specifications.

WARRANTY:

All Gentek steel siding brands carry a Lifetime Limited Warranty. Warranty is transferable if home is sold. See printed warranty for complete details.

CONTACT WITH DISSIMILAR MATERIALS:

Direct contact of steel products with certain dissimilar materials, or contact with water runoff from dissimilar materials, is likely to result in corrosion. Accordingly, care should be taken during installation to avoid such contact of steel with dissimilar materials, including: dissimilar metals (copper, zinc, steel, etc.), concrete, stucco, asbestos siding, pressure treated/pretreated lumber, masonry, corrosive non-metallic materials, and roofing materials or roofing systems containing metallic granules or strips.

PRODUCT PHYSICALS:

Product	Coating Type	Thickness*
Sierra Steel	PVDF2	0.017
*29 Gauge		

BUILDING CODES:

Gentek steel products meet or exceed the following building code specifications:

ICC-ES Legacy — Report #97-64 AAMA 1406-86 FHA/HUD Minimum Property Standards

For architectural specifications of specialty siding and other products, please see your local Gentek dealer.

BETTER PRODUCTS FOR A BRIGHTER FUTURE

Conserving energy, reducing waste and recycling materials are just a few ways we can all work together to leave a smaller environmental footprint on the earth. Our ongoing pledge to environmental stewardship continues to grow as we develop solutions that can contribute to a happier, healthier planet:

- As a sustainable material with a long lifespan, vinyl siding and windows help conserve wood and other resources often
 used in home construction. And because they never need to be painted, they reduce the amount of paint, stain and other
 maintenance-related products that can harm the earth. According to the Vinyl Siding Institute, throughout its life cycle vinyl
 siding has 79% less impact on global warming than fiber cement and 85% less impact than brick and mortar.⁴
- Gentek aluminum siding is produced from material that is at least 90% recycled aluminum. At the end of its long useful life, aluminum siding is 100% recyclable.⁵
- Steel is 100% recyclable and has long been North America's most recycled material!⁶ Heavy-duty steel siding also helps
 energy conservation by creating a tight building envelope to promote efficient heating and cooling performance year-round.

SERVICE AND SELECTION ABOVE ALL

At Gentek, we appreciate the often-challenging schedule of the building products professional. That's why we do our very best to stock our supply centres with everything you need to get the job done efficiently and with beautiful results. Our knowledgeable and friendly staff is readily available to fill your orders, process special requests, offer solutions and assist with whatever you need.

VALUABLE WARRANTY PROTECTION

Gentek delivers the confidence and value only a true leader can provide. We proudly stand behind our products with the full faith of our more than 55 years of manufacturing expertise and some of the strongest warranties in the industry.

For complete warranty information, including limitations, ask your dealer for a copy of the Gentek-brand product warranties. Warranty information for specialty sidings and third-party products can be found on their respective websites.

1001 Corporate Drive | Burlington, ON L7L 5V5 gentek.ca | *Make us a part of your home.*

See your Gentek Sales Representative for additional information regarding any questions you might have, or any assertions herein, concerning energy efficiency or savings. Energy savings will vary. *Insulated glass (IG) units that require capillary tubes may experience some argon gas depletion. *Optional black painted interior finish is available for casement, awning, special shape and picture windows only; the finish is not covered by the Regency or Regency 400 Series warranty. *Learn more about the sustainability of vinyl siding at www.vinylsiding.org/why-vinyl/sustainability/ (accessed 8-3-22). *www.aluminum.org/sustainability (accessed 8-3-22). *Steel: The Clear Cut Alternative for Building Homes.
