THE HIGH PERFORMANCE DOOR BUILT TO SAVE YOU ENERGY

Inspired by European design but built for the harsh Canadian winter, the new Novatech High Performance (NHP) door system is an answer to the growing demand for environmentally-friendly product choices.

Combining innovative construction, robust design and ease of operation, it's the perfect solution for your new home or renovation project.

Security

More than **2x**
the structural integrity
of a standard door
Up to **PG 90** in structural
resistance.

Energy Efficiency

30%
additional insulation
Doorglass **65%** greater
thermal resistance.

Weatherproofing

Up to **2x**
more resistant to
water infiltration
Up to **PG 75** for water
infiltration resistance.

Comfort

Up to **4x**
less air infiltration than
a standard door
Less than **0.13** litres per
second per m² of air infiltration.

ENGINEERED FOR PERFORMANCE

The High Performance system is the result of rigorous research and development. Every technical detail has been accounted for and enhanced to create a new class of entrance system that offers the level of comfort and energy efficiency our clients expect while being simple to integrate within existing manufacturing processes.

Features

Compatible with North American hardware (extension kit required).

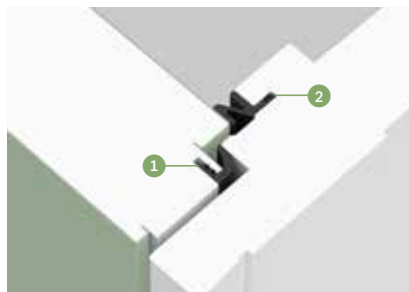

Rebated door with dual weatherstrips (air and water).

Air weatherstrip surrounding the entire panel in a single, unbroken loop.

2¼-inches thick slab made with 30% more steel.

PVC clad wood stiles with no exposed wood.

PVC sweep with anodized aluminum cladding.

1. Continuous EPDM weatherstrip surrounding the door.
2. Water seal on three sides.

Performance **Air:** A3 (0.13 L/s•m²) **Water:** CP 75 (540 Pa) **Structural:** CP 90

Harmonious Design

The high performance door is available in six models that can be matched with the complete collection of decorative glass in triple glazed format.
