

GENTEK SIDING — COLLECTION —

IT'S YOUR HOME.
MAKE IT

Beautiful

GENTEK®

THE GENTEK SIDING COLLECTION

With its classic beauty, superb durability, carefree upkeep and excellent value, the Gentek Siding Collection makes it easy to create an exceptional finish for your home. This extensive collection features composite cladding; vinyl, aluminum and steel siding; specialty panels; and trim accessories – everything you need to give your home a style all its own.

BEAUTIFULLY STRONG AND PROTECTIVE

Incorporating superb materials and cutting-edge technology, Gentek siding is performance-engineered to shield your home from harsh outdoor elements, including pounding rain, high winds, intense heat and frigid cold. And thanks to fade-defying colour formulations, our darker sidings provide outstanding colour retention and resistance to weathering – ensuring your home's beautiful finish will stand the test of time.

DESIGN INSPIRATION

Instantly create a variety of exterior designs with options for siding, trim, roofing, front door paint, exterior window colours and more with the Gentek Visualizer online design tool.

- Choose a house image from the gallery or upload a photo of your home and use the design tools to apply Gentek products and colours to the photo.
- Save and print your preferred designs, products and colours for comparison.

Visit gentekcanada.renoworks.com to get started with the Gentek Visualizer today! And follow our MyDesign Home Studio blog at mydesignhomestudio.com to enjoy a wide range of design tips and renovation ideas.

COLOUR MATCHING MADE SIMPLE

No need to settle for siding and trim that "almost match." Our exclusive Colour Clear Through® collection of customer-preferred hues helps ensure a beautiful colour match with other Gentek siding, trim and accessory products.

ADDED VALUE FOR YOUR HOME

For most people, a home is a source of pleasure and pride, as well as a valuable investment. Gentek siding not only will create an attractive exterior, it will heighten your home's curb appeal as well. And in today's resale market, a beautiful, low-maintenance finish can enhance the value of your home.

THE BEAUTY OF REAL WOOD, BUT WITHOUT THE UPKEEP!

This innovative cladding has it all: high-end style, superior performance, enduring protection and excellent value.

House shown in Smoked Timber.

DESIGN-INSPIRED COLOURS

20 fade-resistant colours brimming with personality.

REALISTIC CEDAR MILL TEXTURE

You'll have to touch it to tell the difference.

POWERFULLY PROTECTIVE

Resists high winds, moisture, impact damage and more.

LIFETIME LIMITED WARRANTY

For added peace of mind; see warranty for details.

ALIGN COMPOSITE CLADDING HAS ARRIVED – AND THERE'S NOTHING ELSE LIKE IT

It's the Details that Make It Beautiful Admire it close up or from the curb. The deeper grain embossing, ample 7" plank exposure and bold, crisp shadow lines achieve a remarkably realistic appearance of natural wood.

It's the Science that Makes It Different Here you will find something never seen before but destined to change the future of exterior cladding. Our exclusive (GP)² Technology® fortifies the performance and durability to ensure exceptional aesthetics, quality and value.

Your Home, Your Style – Exactly as You Want It Nothing does more to impact a home's exterior design than colour. From bold Majestic Brick to refreshing Coastal Blue, Gentek has everything you need to create a virtually maintenance-free exterior that's a true reflection of you.

Colour Palette

Snow White	Dover Gray	Rockwell Blue
Almond	Chesapeake Gray	Midnight Surf
Monterey Sand	Storm	Marine Dusk
Pebble	Hudson Slate	Meadow Fern
Dark Drift	Windswept Smoke	Moonlit Moss
Rockport Brown	Iron Ore	Majestic Brick
Smoked Timber	Coastal Blue	

INTELLIGENT SIDING SOLUTIONS

A fusion of beauty and strength, Sequoia Select EnFusion helps prevent energy loss to keep your home warm and cozy in the winter and refreshingly cool in the summer – with less energy consumption.¹ The laminated, rigid foam insulation is contoured to fill the gap between the siding and your home to provide superior energy efficiency. This protective layer also helps conceal imperfections in the underlayment to ensure smooth wall lines and an upscale appearance.

A NEW STANDARD IN QUALITY AND ENERGY SAVINGS

Energy-Saving Technology Custom-contoured insulation (up to 1-1/4" thick*) creates a blanket of thermal protection.

Greater Impact Resistance Provides more impact resistance than conventional "hollow back" siding for superior strength and a beautifully uniform finish.

Superior Perm Rating of up to 5 Allows insulation to breathe and moisture to escape.

Full-Roll Nail Hem Heavy-duty, double-thick wall attachment increases strength and structural integrity.

Built Weather-Tough! Gentek vinyl siding has been tested to withstand negative windload resistance per ASTM D5206 and meets or exceeds the industry standard for windload performance.

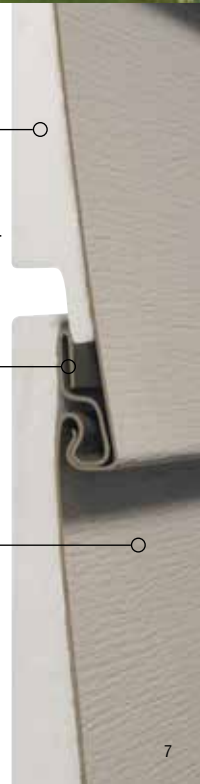

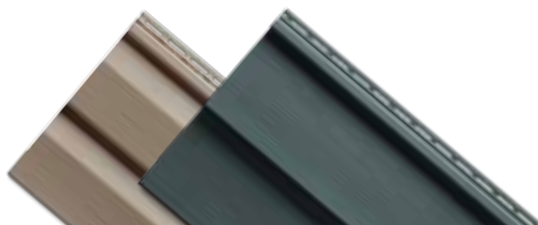

Beautiful Wood-Like Appearance Natural cedargrain texture and low-gloss finish for subtle elegance.

Longer Panels The extra-long 16'8" (D6) and 16'4" (D5D) panel lengths create fewer overlaps for a superior finished look.

THE ULTRA-PREMIUM DISTINCTION

Extra-Heavy Wall Thickness Heavy-duty .046" thickness provides superior rigidity, ensuring straight, smooth walls.

Full-Roll Nailing Hem Delivers double-strength wall attachment.

Exclusive Advantage Lock System

Securely connects panels, greatly enhancing rigidity and stability.

Built Weather-Tough! Gentek vinyl siding has been tested to withstand negative windload resistance per ASTM D5206 and meets or exceeds the industry standard for windload performance.

Rich Cedargrain Emboss Beautiful low-gloss finish achieves natural appeal and excellent durability; requires minimal upkeep.

Superior Lap Height Full 3/4" lap height creates a deeper dimension and enhanced shadow lines for a true wood look.

Double 5" Clapboard and Double 5" Dutch Lap not offered in Designer Colours in British Columbia and Alberta.

BOARD & BATTEN

Ultra-Premium Vertical Vinyl Siding

FAIROAKS®

Premium Vinyl Siding

House shown in Maine Dusk.

House shown in Rockwell Blue.

HISTORICAL CHARACTER

Board & Batten's unique vertical profile design marries historical appeal with modern practicality. This expertly crafted siding features a light roughsawn texture in a full array of beautiful colours.

- Ultra-premium panel construction ensures superior style, durability and protection for your home.
- Features authentically proportioned 7" profile with 5-1/2" board and 1-1/2" batten strip for added dimension.

Classic Colours

HIGH-PERFORMANCE INNOVATIONS

With exquisite colours and an authentic hardwood texture, Fair Oaks captures the timeless appeal of freshly painted wood. But take a closer look and you'll see substantial structural upgrades that help Fair Oaks achieve style and strength beyond ordinary vinyl siding.

- Rolled nail hem provides extra-strong wall attachment.
- Anchor-Tite locking system secures panels together.
- Rugged .044" panel thickness delivers enduring beauty.
- Extra-deep 5/8" butt height enhances structural integrity and creates deeper shadow lines for added dimension.

WOODGRAIN™ 2000

ALUMINUM SIDING

House shown in Bright White.

House shown in Canyon Clay.

CLASSIC BEAUTY AND APPEAL

In Deluxe aluminum siding you have found a protective home exterior that recreates the timeless beauty of freshly painted wood but without the upkeep. Featuring a tough aluminum core and resilient Poly finish, Deluxe never needs to be painted. Just a simple rinse with a garden hose will remove most airborne dust and dirt.

Expertly crafted with attention to detail, the classic profile designs and smooth texture will impart casual elegance to any architectural style.

SUPERIOR BEAUTY, DURABILITY AND PROTECTION

Distinguished for its superb durability and versatile design possibilities, metal is on the rise as a prime exterior cladding. Premium raw materials and cutting-edge technology merge with skilled craftsmanship and artistic vision to achieve the refined quality of our Sierra Steel siding. Each Galvalume steel panel is virtually “weather-sealed” with a resilient Kynar 500 finish coat, ensuring long-lasting beauty and protection.

THE POWERFUL STRENGTH OF STEEL

Impact Resistant Constructed of roll-formed 29 gauge Galvalume[®] AZ-50 steel for superior resistance to hail damage and denting.

Built Weather-Tough Virtually impervious to outdoor elements; unlike wood or fibre cement, it won't absorb moisture. Sierra Steel also resists warping, chalking, fading and brittleness in cold weather.

Upscale Appearance Achieves a beautifully uniform appearance with smooth walls, bold edges and dramatic shadow lines.

Carefree Maintenance No need for time-consuming painting or scraping; simply rinse with a garden hose to help restore the like-new beauty.

Simple to Install Unlike fibre cement, steel siding installation does not recommend a dust respirator or involve hazards from silica dust.

Insect Resistant Resists damage from wood-eating insects, such as termites.

Recyclable Steel siding is 100% recyclable!

LASTING BEAUTY AND PROTECTION

Perhaps more than any other siding, SteelSide calls to mind the captivating appeal of freshly painted clapboard. Its rich, natural-looking colours embellished with an authentic woodgrain texture will lend the perfect measure of refinement to your home, while protecting it with a solid steel shield.

House shown in Bright White.

Almond	Norwood	Pacific Blue
Wicker	Thistle	Dover Gray
Canyon Clay	Sable	

IMPRESSIVE STYLE AND STRENGTH

Enduring Elegance High-performance Galvalume® AZ-50 steel is virtually “weather-sealed” in a thick PVC finish that’s three times thicker than most conventional coatings.

Powerful Steel Construction Heavy-duty panels will wrap your home in a rugged steel exterior.

All-Season Weather Protection Blasting winds, pounding hailstorms, frigid temperatures and intense sun are no match for SteelSide’s superior strength.

Clean, Crisp Wall Lines High dimensional stability of rigid steel provides resistance to buckling and the wavy appearance that can result from extreme weather changes.

Carefree Maintenance SteelSide requires minimal upkeep – just rinse occasionally with a garden hose to help restore the siding’s fresh-looking appearance.

A More Sustainable Choice Steel offers many advantages for residential home building – and is the most recycled material on the planet!²

MORE THAN A CLADDING SYSTEM...

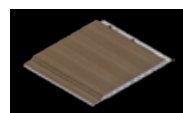

Lightweight and strong, ChamClad's impact-resistant, non-fading PVC panels provide beautiful architectural options for a wide range of applications, inside and out.

- Produced in Canada from recycled rigid PVC; LEED compliant and CCMC certified.
- A beautiful solution for a wide range of applications including siding and soffit, beams and pillars, interior walls and ceilings.
- One of the most realistic finishes on the market with matte and texturized patterns.
- Stay-true colours that offer superior UV protection, weather resistance and colour stability.
- Quality finishes protect against heat buildup and are scratch- and graffiti-resistant.
- Easy installation – no special tools or caulking required.
- One profile offers two looks: V-Groove or U-Channel.
- Products available on CAD Details and Specpoint.
- Choose from a full selection of colours, trim and accessories.

THE BEAUTY OF REAL STONE WITHOUT THE ADDED COST

Recreating the organic beauty of stacked stone, Genstone faux stone panels make it easy to enhance the exterior of your home or create a focal point for the interior design.

- Mortarless, easy-to-install, panelized system.
- Save up to 50% over the installed cost of real and cultured stone.
- Lightweight panel construction won't add significant weight to the existing wall structure.
- Cuts like wood with an ordinary hand or power saw.
- Can be installed over any flat surface, such as plywood, concrete, stucco, existing brick and drywall.
- Choose from a full selection of natural-looking stone colors and trim accessories to achieve your ideal finished look.

FAIRHAVEN SOUND® SINGLE SELECT

Ultra-Premium Shakes & Scallops

NATURAL BEAUTY – REDEFINED

With exquisite detail, Fairhaven Sound Single Select features substantial design enhancements that distinguish it from ordinary shake siding. The single-row course, varied mold patterns and extended panel lengths together accomplish a markedly superior finished look, beautifully capturing the inviting ambience of natural, handcrafted wood.

HIGH-PERFORMANCE SHAKES AND SCALLOPS

- Integrated panel locking system secures panels firmly together for increased strength and structural integrity, as well as a more uniform finished look.
- Self-aligning nail slots and a temperature chart on the side tab help ensure that each panel is properly positioned for potential expansion and contraction in all weather.
- Approximately 40% longer than typical shake and scallop profiles, Fairhaven Sound Single Select's 6'8" extended length helps achieve long, uninterrupted lines for a smoother finish.
- Tested to withstand negative windload resistance per ASTM D7254; meets or exceeds the industry standard for windload performance.
- Self-concealing side tabs feature the same cedargrain detail as the panel to hide seams where panels are joined.
- An expanded variety of shake moulds creates a random, natural-looking appearance just like actual cedar.
