ColorMatch® (additional
lead times apply)

Alfrex 4mm ACM panel and 3mm plate is coil coated utilizing 70% Kynar 500® / Hylar 5000® PVDF resins with fluoropolymer technology, providing excellent flexibility and film adhesion, with superior resistance to humidity, impact, salts pray, pollution, and abrasion, while meeting industry performance standard AAMA 2605.

All finishes shown are reproductions and may differ slightly from actual products. Product samples are available for color verification and approval.

TWO COAT MICAS

Micas and metallics are directional finishes requiring panels to be installed in the same orientation to minimize the chance of visual color differences. Panels should always be installed with the arrows on the protective film facing the same direction.

Anodic Clear Mica*
JY-2510

Silversmith
JY-2515

Champagne Mica
JY-2550

Copper Penny Mica
JY-2570

Pewter Mica
